VISION

At Auburn South Primary School we develop a positive sense of identity within a community that encourages individuals to flourish as inquirers, creative thinkers and globally responsible citizens.

OBJECTIVE

Our school's intent is to fulfil our vision and improve student learning outcomes across all areas of the curriculum while promoting positive health, inclusivity and empowerment for all students, parents and staff.

To achieve this, we prioritise the following four strategic pillars:

Inquiry: Learners are curious and have the skills to pursue learning that has real-world relevance and impact.

Agency: Learners are autonomous, resilient and motivated to take action.

International Mindedness: Learners thrive in a culturally diverse & rich learning environment. They actively see different perspectives and understand the world through a local and global lens.

Statement of Values and School Philosophy

Positive Education: As learners, our mindsets, strengths, relationships, emotions and sense of meaning, engagement and success are central to the pursuit of our best possible selves.

VALUES

The school's values are reflected through the International Baccalaureate (IB) Learner Profile attributes and the Primary Years Program (PYP) Attitudes that are explicitly taught and embedded throughout the school's Program of Inquiry.

IB Learner Profile attributes

- The IB learner profile represents a broad range of human capacities and responsibilities that encompass intellectual, personal, emotional and social growth.
- Developing and demonstrating the attributes of the learner profile provides an important foundation for international-mindedness.
- The learner profile supports students in taking action for positive change.

At Auburn South Primary School we strive to be:

Inquirers: We nurture our curiosity, developing skills for inquiry and research. We know how to learn independently and with others. We learn with enthusiasm and sustain our love of learning throughout life.

Knowledgeable: We develop and use conceptual understanding, exploring knowledge across a range of disciplines. We engage with issues and ideas that have local and global significance.

Thinkers: We use critical and creative thinking skills to analyse and take responsible action on complex problems. We exercise initiative in making reasoned, ethical decisions.

Communicators: We express ourselves confidently and creatively in more than one language and in many ways. We collaborate effectively, listening carefully to the perspectives of other individuals and groups.

Open-Minded: We critically appreciate our own cultures and personal histories, as well as the values and traditions of others. We seek and evaluate a range of points of view, and we are willing to grow from the experience.

Caring: We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.

Risk-Takers: We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.

Balanced: We understand the importance of balancing different aspects of our lives—intellectual, physical, and emotional—to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.

Statement of Values and School Philosophy

Principled: We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.

Reflective: We thoughtfully consider the world and our own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.
